

**Job Title:** Electronics Engineer R & D

**Department:** Engineering

**Reports to:** VP of Engineering

**Georg Fischer Signet LLC** is a recognized leader in fluid sensor technology. Serving customers worldwide, we manufacture analytical sensors and instrumentation for the water treatment market.

Located in North America (El Monte, CA), we are a dedicated team seeking an Electronics Engineer R & D. The Electronics Engineer is responsible for development and test activities for new electronic products. Other responsibilities may include comprise research activities, technical support of customers or other departments and project management assignments.

**Key responsibilities include:**

- Design electronic circuits, components, products, firmware, software, and integrated systems
- Designs test equipment, determines procedures for testing products
- Directs engineering staff in fabrication of test control and equipment
- Evaluates operational systems and recommends design modifications to eliminate causes of malfunctions or changes in system requirements
- Use computer assisted design software & equipment to perform tasks

The successful candidate will have effective and positive communication with various groups, be on-time with completion of assigned tasks and participate in continuous growth of knowledge in technical skills and new technology. Education required: Bachelor of Science (BSCEE or BSCE) degree from a four year college or university and some related work experience.

To become a part of our winning team, please send your resume along with cover letter and salary history to:
